I am an Informatics undergraduate at President University. I have experience in software engineering, machine learning, with hands-on work in IoT systems, AI prototyping, and data-driven projects. Passionate about using tech to solve real problems and exploring new tools. I am also actively developing leadership, teamwork, and communication abilities through campus organizations and collaborative initiatives.

EDUCATION

President University – Bachelor’s Degree in Informatics **2023 - Present**
GPA 3,71/ 4,00
75% Jababeka Scholarship Awardee

WORK EXPERIENCES

Leverate Group – Indonesia **Jan 2026 - May 2026**
AI Engineer

- Led the development of AI-driven applications, including RAG chatbots, Voice AI, and internal resource management tools.
- Built automated web content generation pipelines using n8n, significantly reducing manual production time.
- Performed continuous AI research and model evaluation to optimize workflows, increasing operational efficiency by 20-30%.

PT Integrity Asia – Indonesia **Sept 2025 - Jan 2026**
Software Engineer

- Developed frontend and backend systems using React, Java, Spring Boot, and SQL within SDLC-based workflows.
- Contributed to Prisma V3, a background screening platform used by 100+ enterprise clients.
- Supported system reliability testing and performance optimization.

AI Research Freelancer **Oct 2025 - Dec 2025**
AI Research & Development

- Supporting research and prototyping AI models for client-based projects.
- Applying machine learning techniques for data analysis, model evaluation, and inference optimization.
- Staying up-to-date with the latest trends in generative AI, deep learning, and applied research.

PR & Event President University **Oct 2023 - Apr 2024**
Website Manager & News Writer

- Managed and published 20+ web content pieces related to campus events, improving online visibility and engagement.
- Collaborated with the PR team to maintain the university’s official digital presence, reaching an audience of 5,000+ students and staff

ORGANIZATIONAL EXPERIENCES

President University Developer Club **Sept 2024 - Aug 2025**
Chairperson

- Lead the strategic direction of a technology-based club focused on front-end and back-end development, artificial intelligence, and cybersecurity.
- Oversee the planning and implementation of key programs, including workshops, study jam sessions, and internal development projects.
- Mentor over 150+ active members across grades and majors to foster capacity growth and cross-disciplinary collaboration.

President University Major Association Informatics

Sept 2024 - Aug 2025

Vice Head of External Relation

- Support the Division Head in team management and ensure effective coordination across all external activities.
- Lead all phases of the event, from supervising, planning and logistical coordination to implementation and evaluation.

President University Student Board

Sept 2023 - Aug 2024

Research and Development – Ministry of Self Development

- Led research and evaluation for 12 major PUSB events, collecting feedback data from various stakeholders.
- Evaluate the effectiveness of activities based on the results of data analysis.

Google Developer Student Club ITB

Sept 2023 - Aug 2024

Web Development Member

- Participate in various learning activities such as workshops, study hours, technology discussions, and practice-based projects.
- Contribute to team problem-solving, creative ideas, and cross-disciplinary collaboration.

PROJECTS

• Sector Signal Chatbot – Leverate group	2026
Developed an NLP chatbot using RAG for internal database driven.	
• Live Voice AI Agent – Leverate group	2026
Developed a real-time speech-to-speech system for automated consulting.	
• Resource Planner – Leverate Group	2026
Built an automated system for workforce allocation and project scheduling.	
• IoT Box – PT. Mattel Indonesia	2025
Developed an IoT system for realtime machine monitoring.	
• Customer Churn Prediction – PT. Lapis AI	2025
Built an ML model to predict customer churn and retention patterns.	
• Prisma App – PT. Integrity Asia	2025
Built a web-based background screening system for corporate verification.	

VOLUNTEER EXPERIENCES

• Exhibition LAM S2 IT President University Accreditation	2025
IoT Trainer & IoT Project Exhibitor	
• Hackathon Seminar Bank Indonesia – ID Cloud Community	2025
• Elevate Informatics Festival	2025
Project Manager	
• Company Visit to CTI Group & PT. Amerta Indah Otsuka	2025
• Comparative Study PUSB – Unhan RI	2024
Vice Project Manager	

CERTIFICATES & COURSES

• EF SET Score C1	2026
• 1st Place Best Project BwAI Hackaton Jakarta	2026
• Full-Stack Web Developer Coding Camp – DBS Foundation	2026
• Intro to Software Engineering – RevoU	2025
• Oracle Cloud Infrastructure AI Foundations Associate – Oracle	2025
• Getting Started with AWS IoT – Amazon Web Services	2025

SKILLS

Hard Skills: Python, Java, C++, JavaScript, RESTful APIs, Flask, Docker, Firebase, SQL, n8n, Machine Learning, LLMs, Data Analysis, IoT Systems.

Soft Skills: Teamwork, Time Management, Leadership, Problem Solving, Adaptive, Indonesian, English.
